

SIMPLIFY YOUR KITCHEN OPERATIONS

Streamline every order from fire to finish.

LINGA KDS helps restaurants stay organized, improve communication, and move orders from prep to plate with speed and accuracy. Orders appear instantly on the right screen, keeping your kitchen aligned and service flowing smoothly.

ORDER ACCURACY

Never miss an order

LINGA KDS ensures every order reaches the correct station clearly, so teams stay focused and costly mistakes drop. Color-coded displays and organized item grouping show what's cooking, what's finished, and what needs attention.

KITCHEN VISIBILITY

See the line in real time

When every team member can see exactly what's in progress, the kitchen moves as one. Cooks, expos and leads can monitor prep stages, track ticket timelines, and spot delays before they impact guests, from open to close.

SMART KITCHEN WORKFLOWS

Work smarter with organized, automated routing

Smart routing

Route appetizers, entrees, sides and drinks to the right screen or printer automatically. Each station only sees its items.

Clear displays

Digital, color-coded screens replace paper tickets so staff focus on cooking, not searching for incoming items.

Real-time tracking

Track cooking times, see in-progress tickets, and bump or recall items instantly with a tap.

ONE KITCHEN PLATFORM

Grow with confidence on one platform

LINGA KDS works as part of the full LINGA POS ecosystem, connecting front-of-house, back-of-house and management in one workflow, for single or multi-location operations.

- ✓ Real-time order flow
- ✓ Unified kitchen workflow
- ✓ Simple staff training
- ✓ Consistent reporting tools
- ✓ Scalable for growth

One local contact

Install, menu build, training and support from someone who answers.

Straightforward terms

No surprise auto-renewals and no rates quietly nudged up after you sign.

Payments, handled

Card processing set up with your Linga system through NCS Pays.
