

LINGA POS FOR INDEPENDENT PIZZA SHOPS

Built for pizza. Not adjusted for it.

A cloud POS set up for how pizza actually sells, with NCS Pays as the local team behind it.

Linga POS at a pizzeria counter

KEEP WHAT YOU RING UP

No per-order online ordering fees. No app commission on your own deliveries.

ONLINE ORDERING: SLICE PER-ORDER FEES*

Slice Online	\$39/mo + \$3.00/online card order
Slice full plan	\$99/mo + \$2.00/online or phone order
Linga online ordering	\$0 per order

Example: 300 online/phone orders a week (1,300/mo) × \$2.00 ≈ \$2,600/mo in Slice per-order fees, before the \$99/mo plan and card processing. No Slice fee on orders under \$10.

DELIVERY APPS: COMMISSION ON A \$30 ORDER*

DoorDash 15% / 25% / 30%	\$4.50 / \$7.50 / \$9.00
Uber Eats 20% / 25% / 30%	\$6.00 / \$7.50 / \$9.00
Grubhub 5–20% + delivery from 10%	\$4.50+ / \$7.50+ / \$9.00+
Your drivers, dispatched in Linga	\$0 app commission

You keep the order and the customer. Driver pay and mileage are your own costs.

WHAT LINGA DOES FOR A PIZZA SHOP

On the make line

- **Half & half, even quarters.** Full, half, and quarter builds, with toppings customized section by section.
- **Custom pizza, by the slice.** A topping selector to add, remove, or swap toppings with ease.
- **Modifiers that fit pizza.** Mandatory and optional modifiers, plus pre-built specialty pies.

Out the door

- **Delivery zones.** Define where delivery orders are accepted and set zones that match how you run.
- **Driver tracking & dispatch.** Live driver tracking and a dedicated driver app: assign orders, track deliveries in real time, turn-by-turn directions, smart routing.

Online, under your name

- **Your own ordering.** A branded mobile app and website ordering for pickup, delivery, and scheduled orders.
- **Menu in sync.** Online menu changes sync with the POS in real time; online orders go straight to the kitchen.
- **Loyalty built in.** Rewards points to bring regulars back, plus third-party delivery integration.

One screen instead of five

- **One platform.** In-store and delivery orders managed in one place, from the kitchen to the front counter.
- **Keeps working offline.** Keep processing transactions through an internet outage; data syncs once you're back online.

Why NCS Pays

Transparent agreements

No ugly contracts that auto-renew on you. No rates quietly nudged up after you sign. You'll know what you agreed to.

A real local person

No 1-800 number, no phone tree, no time-sucking calls. When you call, you reach someone who knows your shop, and they pick up.

Set up with you

Install, processing, menu build, and training, handled by the same people you'll call later.
